Enrich Your Life with Masterpiece Living

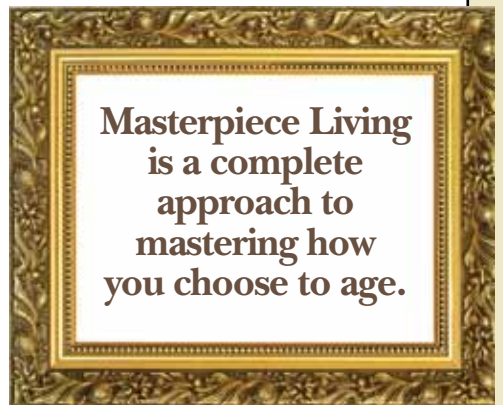

The Renaissance is proud to announce its partnership with Masterpiece Living, a research-based approach that offers rich opportunities for living a happier, healthier life. The Renaissance is the first and only community in Ohio to partner with Masterpiece Living, which brings together the people, resources, activities and culture you need to achieve your personal best. These elements include a strong network of positive relationships and a daily life characterized by optimal physical, intellectual, spiritual and social opportunities.

The Facts

Masterpiece Living is a life-enriching resource based on the decade-long Study on Aging by the MacArthur Foundation and the resulting book *Successful Aging* by Rowe and Kahn. This study concluded that **the choices we make every day determine 70% of physical aging and 50% of mental aging.** According to the study, older adults can continue to grow, no matter what their age. Living in a life-enriching environment facilitates that growth.

A Perfect Fit

Eliza Jennings Senior Care Network is a nationally recognized leader in the cultural transformation movement now taking hold in senior living organizations. It was also the first accredited Aging Services Network in the country, and owns two of the first accredited assisted living communities in North America. So when the Network examined the principles of Masterpiece Living, it immediately recognized the potential this philosophy held to enhance life at The Renaissance. “Masterpiece Living is a complete approach to mastering how you choose to age, and it’s a perfect fit for our community because it enhances the amazing array of choices we already offer.” says Maureen Moffatte, Executive Director at The Renaissance.

Through this partnership, The Renaissance joins an elite, forward-thinking group of retirement communities located throughout the United States who have chosen to organize themselves around the fundamental principles of Masterpiece Living. ♦

Empowered Aging. Powerful Living.

The 10-year-long MacArthur Foundation Study on Aging determined that how we age depends more on lifestyle, including where we live, than it does on our genes. *70%* of how well someone ages is *actually* within their control! It also discovered that it is *never too late* to make a significant difference in how we age.

Whether we experience “usual aging” or “optimal aging” it is determined mostly by our lifestyle choices. **Those who challenge themselves mentally and physically, who do all they can to lower their risks for disease and injury, and who stay engaged in life with a network of friends and with meaningful activity, will travel the high road of aging.** At The Renaissance, with Masterpiece Living, you can discover your strengths,

and refine your lifestyle in order to be all you can be. ♦

The Renaissance...Building on a Solid Tradition

Eliza Jennings Senior Care Network: 120 Years of Exceptional Senior Residences & Services

The Renaissance is proud to be a part of Eliza Jennings Senior Care Network, Cleveland's leader in senior care for more than a century. Since the founding of the original Eliza Jennings Home in 1888, our not-for-profit organization has built a strong legacy as one of the area's largest, most trusted senior care providers.

The Renaissance has been accredited by CARF-CCAC, the accrediting body for CCRCs, since 1995. Accreditation is given only to continuing care communities that demonstrate excellence in resident life, health and wellness, financial resources and transparency, and governance and administration. ♦

One of the Best Decisions You'll Ever Make

Over a decade ago, the MacArthur Foundation Study on Aging concluded that the choices we make can dramatically affect the way we age. In *Successful Aging*, the authors of the study revealed that people who experience physical, intellectual, social and spiritual growth as they age actually do live longer, happier and healthier lives.

We're all familiar with the negative stereotype of aging that permeates our society. The idea that growing older leads to decreased possibilities for growth and unavoidable decline can become a self-fulfilling prophecy. However, the MacArthur study research shows that if we believe in our ability to grow, we can experience success in our personal lives even as we face the challenges inherent in aging.

Your decision to move into a retirement community can be one of the most important health decisions you'll ever make. The type of community you choose will have a direct bearing on the likelihood that your dreams for the future will become a reality.

Masterpiece Living at The Renaissance offers a proven, research-based way to reach your personal life best and live a happier, longer life. With the solid backing of Eliza Jennings Senior Care Network, you can rest assured that your future needs will be met here at The Renaissance.

There's no time like the present to take positive steps toward becoming our best selves and realizing our potential for a happy, fulfilling life. We hope you'll take the first step to ensuring that your future will be secure and full of opportunities for growth and personal fulfillment by calling us today. We look forward to showing you how Masterpiece Living at The Renaissance truly can enrich your life. ♦

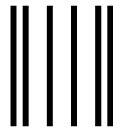

Warm Regards,

Maureen Moffatte
